Gallinarum (in case of Numida meleagris, Coturnix coturnix, Phasianus colchicus, Perdix perdix and Anas spp.);] (1) (5) (6) (7) either o [II.1.5. the poultry other than ratites described in Part I: <p>II.1.5.1. have had no contact with newly-arrived poultry or with birds of lower health status during the last 21 days prior to the date of departure of the consignment;</p> <p>II.1.5.2. come from a flock in which no confirmed case of low</p>		

Part II: Certification	II. Health information				
					pathogenic avian influenza was detected during the last 21 days prior to the date of departure of the consignment, in accordance with the surveillance provided for in Article 3(1) of Commission Delegated Regulation (EU) 2020/689;
		II.1.5.3.			
	(1)(10)	○ either	[(a)		have not been vaccinated against infection with Newcastle disease virus;]
	(1)(10)	○ or	[(a)		have been vaccinated against infection with Newcastle disease virus with <input type="checkbox"/> [inactivated vaccines](1) <input type="checkbox"/> [live attenuated vaccines that comply with the criteria of Annex VI to Commission Delegated Regulation (EU) 2020/688] (1) (name of strain used in the vaccine)on (date) at the age of () weeks;]
(1)(11)	○ or	[(a)		are intended for a Member State or zone thereof which has been granted the status free from infection with Newcastle disease virus without vaccination, and they:	
	(1)(5)	○ either	[(i)	have not been vaccinated against infection with Newcastle disease virus;	
			(ii)	were kept in isolation for at least 14 days prior to the date of departure of the consignment under the supervision of an official veterinarian in the establishment of origin or in an approved quarantine establishment, where: <ul style="list-style-type: none"> - no poultry was vaccinated against infection with Newcastle disease virus during at least 21 days prior to the date of departure of the consignment; - no other birds have entered into the establishment during that time; - no vaccination has been carried out; 	
			(iii)	have tested negative to serological tests to detect antibodies against Newcastle disease virus, performed on blood samples at a level which gives 95 % confidence of detecting infection at 5 %	

Part II: Certification	II. Health information			
	(1)(6)	○ or (1)	[come from a flock which: ○ either	prevalence and which were taken during the last 14 days prior to the date of departure of the consignment;] [is not vaccinated against infection with Newcastle disease virus and tested negative, during the last 14 days prior to the date of departure of the consignment, in serological tests to detect antibodies against Newcastle disease virus performed on blood samples at a level which gives 95 % confidence of detecting infection at 5 % prevalence;]
		(1)	○ or	[is vaccinated against infection with Newcastle disease virus and tested negative, during the last 14 days prior to the date of departure of the consignment, in a test to detect the presence of Newcastle disease virus, performed at a level which gives 95 % confidence of detecting infection at 5 % prevalence;]]
	(1)(7)	○ or	[(i) (ii)	has not been vaccinated against infection with Newcastle disease virus; come from hatching eggs which: - are not vaccinated against infection with Newcastle disease virus; - come from flocks which
			(1)	○ [have not been vaccinated against infection with Newcastle disease virus;]
			(1)	○ or [have been vaccinated against infection with Newcastle disease virus with <input type="checkbox"/> [inactivated vaccines](1) <input type="checkbox"/> [live

Part II: Certification	II. Health information			
				<p>attenuated vaccines that comply with the criteria of Annex VI to Delegated Regulation (EU) 2020/688 and vaccination has taken place at least 30 days prior to the date of collection of the hatching eggs](1) (name of strain used in the vaccine)on (date) at the age of weeks;]</p> <p>(iii) come from a hatchery where working practice ensures that the hatching eggs are incubated at completely separate times and locations from hatching eggs not satisfying the conditions referred to in point (ii);]]</p>
	(12)	<input type="checkbox"/> [(b)	are ducks or geese and have tested negative to a virological examination for highly pathogenic avian influenza, in accordance with the requirements of Annex IV to Delegated Regulation (EU) 2020/688, during the week prior to the date of departure of the consignment;]	
		II.1.5.4.	have been subjected to a clinical inspection together with the flock of their origin within the 48 hours prior to loading for dispatch of the consignment to the Union, and showed no clinical signs or suspicion of listed diseases relevant for the species;]	
(4)(17)	<input type="checkbox"/> [II.1.5.5.	the day-old chicks other than ratites described in Part I of this animal health/official certificate have hatched from hatching eggs which have entered into the Union from a third country or territory, or zone thereof in accordance with the provisions of Commission Delegated Regulation (EU) 2020/692.]]		
(1) (8) or II.1.5.1.	<input type="checkbox"/> [II.1.5.	the hatching eggs of poultry other than ratites described in Part I: come from a flock which on the basis of		
	(1)	<input type="checkbox"/> either	[a clinical inspection within the last 72 hours prior to the time of departure of the consignment and the health and production records kept in the establishment, checked within the last 72 hours prior to the time of departure of the consignment, shows no clinical signs or suspicion of listed diseases relevant for the species;]	
	(1)	<input type="checkbox"/> or	[monthly health inspection visits, the most recent being within the last 31 days prior to the date of departure of the consignment, and the health and production records kept in the establishment, checked within the last 72 hours prior to the time of departure of the consignment, shows no clinical signs or suspicion of listed diseases	

Part II: Certification	II. Health information			
	(1)(10)	○ either	[II.1.5.2.	relevant for the species;] come from a flock which has not been vaccinated against infection with Newcastle disease virus;]
	(1)(10)	○ or	[II.1.5.2.	come from a flock which has been vaccinated against infection with Newcastle disease virus with <input type="checkbox"/> [inactivated vaccines](1) <input type="checkbox"/> [live attenuated vaccines that comply with the criteria of Annex VI to Delegated Regulation (EU) 2020/688] (1) (name of strain used in the vaccine) on (date) at the age of weeks;]
	(1)(11)	○ or	[II.1.5.2.	are intended for a Member State which has been granted the status free from infection with Newcastle disease virus without vaccination, and they: (a) have not been vaccinated against infection with Newcastle disease virus; (b) come from a flock which
			(1)	○ either [has not been vaccinated against infection with Newcastle disease virus;]
			(1)	○ or [has been vaccinated against infection with Newcastle disease virus with <input type="checkbox"/> [inactivated vaccines](1) <input type="checkbox"/> [live attenuated vaccines that comply with the criteria of Annex VI to Delegated Regulation (EU) 2020/688 and the vaccination has taken place at least 30 days prior to the date of collection of the hatching eggs](1) (name of strain used in the vaccine) on (date) at the age of weeks;]]
		II.1.6.		the consignment will be transported in means of transport and in containers that comply respectively with Articles 4 and 5 of Delegated Regulation (EU) 2020/688.
	II.2.	Public health attestation		
	II.2.1.	I, the undersigned official veterinarian, hereby certify the following as regards the <input type="checkbox"/> [breeding poultry other than ratites](1) <input type="checkbox"/> [productive poultry other than ratites](1) <input type="checkbox"/> [poultry intended for slaughter other than ratites](1) <input type="checkbox"/> [day-old chicks other than ratites](1) described in this animal health/official certificate:		
	(13)	<input type="checkbox"/> [II.2.1.1.	The Salmonella control programme referred to in Article 5 of Regulation (EC) No 2160/2003 of the European Parliament and of the Council, and the specific requirements for the use of antimicrobials and vaccines laid down in Commission Regulation (EC) No 1177/2006, have been applied to the flock of origin and the flock has been tested for Salmonella serotypes of public health significance:	
	Identification of the flock	Age of the birds	Date of last sampling of the flock from which the testing result is known [dd/mm/yyyy]	Result of all testing in the flock(14) positive negative

Part II: Certification	II. Health information		
			For reasons other than the Salmonella control programme, within 21 days prior to the date of departure of the consignment:
	(1)	○ either	[antimicrobials were not administered to the breeding and productive poultry other than ratites;]
	(1)(15)	○ or	[the following antimicrobials were administered to the breeding and productive poultry other than ratites: .]
(13)	<input type="checkbox"/>	[II.2.1.2.	If breeding poultry, neither Salmonella Enteritidis nor S. Typhimurium were detected within the control programme referred to in point II.2.1.1.]
(16)	<input type="checkbox"/>	[II.2.1.3.	If the Member State of destination is Finland or Sweden:
	(1)	○ either	[the breeding poultry has tested negative for Salmonella in accordance with the rules laid down in Commission Decision 2003/644/EC;]
	(1)	○ or	[the laying hens (productive poultry reared in view to producing eggs for consumption) have tested negative in accordance with the rules laid down in Commission Decision 2004/235/EC.]]
Notes:			
This animal health/official certificate is valid for 10 days from the date of issuing.			
In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to the Union in this animal health/official certificate include the United Kingdom in respect of Northern Ireland.			
This animal health/official certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 2 of Annex I to Commission Implementing Regulation (EU) 2020/2235.			
Part I:			
Box reference I.30:	Description of consignment:		
	“CN code”: Indicate the appropriate Harmonised System (HS) code(s) of the World Customs Organisation under the following headings: 01.05, 01.06.39, 04.07.		
	“Category”: Select one of the following: Pure line/grandparents/parents/laying pullets/others.		
Part II:			
(1)	Delete if not applicable.		
(2)	Insert the name of the disease(s).		
(3)	Insert the specific reference to the article(s), title, and number of the relevant legal act(s) adopted by the Commission providing for those requirements.		
(4)	Insert the specific attestation(s) provided for in and required by the relevant legal act(s) adopted by the Commission, as referred to in Article 126(1), points (b)(ii) and (iii), of Regulation (EU) 2016/429 of the European Parliament and of the Council.		
(5)	Applicable for breeding poultry and productive poultry. Delete reference if not applicable to the consignment.		
(6)	Applicable for poultry intended for slaughter. Delete reference if not applicable to the consignment.		

II. Health information				
Part II: Certification	(7)	Applicable for day-old chicks. Delete reference if not applicable to the consignment.		
	(8)	Applicable for hatching eggs. Delete reference if not applicable to the consignment.		
	(9)	If the animals have been vaccinated against infection with any serotype of Salmonella or Mycoplasma, only bacteriological testing shall be used. The confirmation method shall be capable of differentiating between live vaccinal strains and field strains.		
	(10)	Delete when the consignment is dispatched from a Member State or zone thereof which does not have the status “free from infection with Newcastle disease virus without vaccination” to a Member State or zone thereof which has been granted such status.		
	(11)	This guarantee is required for consignments dispatched from a Member State or zone thereof which does not have the status “free from infection with Newcastle disease virus without vaccination” to a Member State or zone thereof which has been granted such status. Delete reference if not applicable to the consignment.		
	(12)	Applicable for ducks and geese, except those intended for slaughter. Delete reference if not applicable to the consignment.		
	(13)	This guarantee applies only for poultry belonging to the species of Gallus gallus and turkeys.		
	(14)	If any of the results were positive for the serotypes below during the life of the flock, indicate as positive:		
	-	flocks of breeding poultry: Salmonella Hadar, S. Virchow and S. Infantis;		
	-	flocks of productive poultry: Salmonella Enteritidis and S. Typhimurium.		
	(15)	Complete if appropriate: indicate the name and active substance of antimicrobials used.		
	(16)	Delete if consignment is not intended for Finland or Sweden.		
	(17)	As the day-old chicks referred to in this animal health/official certificate have hatched from eggs which have entered the Union from a third country or territory, or zone thereof, the specific animal health requirements for movement and handling of those animals in the establishment of destination, laid down in Articles 112, 113 and 114 of Delegated Regulation (EU) 2020/692, shall be respected in the Member State of destination.
