Part I: Description of consignment

Large empty rectangular area for description of consignment.

II. Health information				
II. Health information				
I, the undersigned official veterinarian, hereby certify, that:				
Part II: Certification	II.1.	The animals (1) of the consignment described in Part I meet the following requirements:		
	II.1.1.	The animals have not shown signs of occurrence of American foulbrood, <i>Aethina tumida</i> (Small hive beetle) and <i>Tropilaelaps</i> spp. during the visual examination carried out within the last 24 hours prior to the time of departure of the consignment.		
	II.1.2.	Their packaging and any accompanying feed or other material have not shown signs of presence of American foulbrood, infestations with <i>Aethina tumida</i> (Small hive beetle) and <i>Tropilaelaps</i> spp. during the visual examination carried out within the last 24 hours prior to the time of departure of the consignment.		
	II.1.3.	The documentary check verified that the establishment of origin has been inspected every month during the production season by the competent authority with negative results to provide a confidence level of at least 95 % of detecting infestation with <i>Aethina tumida</i> (Small hive beetle) if at least 2 % of the hives were infested.		
	II.1.4.	The animals are caged individually with a maximum of 20 accompanying attendants.		
	II.1.5.	Arrangements have been made to ensure that the cages, containers or the entire consignment are covered with fine mesh of not more than two mm in pore size immediately after the visual examination for the animal health certification.		
	II.2.	According to official information, the animals meet the following animal health requirements:		
	II.2.1.	The animals come from an apiary situated in the centre of a circle of at least three km radius where American foulbrood has not been reported during the last 30 days prior to the date of departure of the consignment and which is not restricted due to an outbreak of American foulbrood.		
	II.2.2.	The animals come from an apiary situated in the centre of a circle of at least 100 km radius, where infestation with <i>Tropilaelaps</i> spp. has not been reported and which is not restricted due to a suspected case or the confirmed occurrence of infestation with <i>Tropilaelaps</i> spp.		
	II.2.3.	The animals come from an apiary in which an infestation with <i>Aethina tumida</i> (Small hive beetle) has not been reported and the apiary is situated at a distance of at least 30 km from the limits of a protection zone of at least 20 km in radius established by the competent authority around a confirmed occurrence of infestation with <i>Aethina tumida</i> (Small hive beetle).		
	II.2.4.	The animals come from an apiary which is not located in a zone restricted by emergency measures established by the Union due to the confirmed occurrence of infestation with <i>Aethina tumida</i> (Small hive beetle).		
	II.2.5.	The animals come from an apiary of origin which is situated in an area where annual surveillance for the detection of infestation with small hive beetle by the competent authority is ongoing to provide a confidence level of at least 95 % of detecting infestation with <i>Aethina tumida</i> (Small hive beetle) if at least 2 % of the apiaries were infested.		
	(2)	<input type="checkbox"/>	[II.2.6. The animals come from a Member State or zone thereof with the status “free from infestation with <i>Varroa</i> spp.” and arrangements have been made to ensure that they are protected from infestation with <i>Varroa</i> spp. during transport.]	
	II.3.	To the best of my knowledge and as declared by the operator, the animals in the consignment come from an establishment where there were no abnormal mortalities with an undetermined cause and they have not been in contact with honeybees which did not comply with the requirements referred to in point II.2.		
	II.4.	This animal health certificate is valid for 10 days from the date of issuing. In the case of transport by waterway/sea of animals, the period of 10 days for the validity of the certificate may be extended by the duration of the journey by waterway/sea.		
Notes:				
In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to the Union in this animal health certificate include the United Kingdom in respect of Northern Ireland.				

<b>Part II: Certification</b>	II. Health information	
	This animal health certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 2 of Annex I to Commission Implementing Regulation (EU) 2020/2235.	
	Part I:	
	Box reference I.11:	“Place of dispatch”: Indicate a registered establishment.
Box reference I.12:	“Place of destination”: Indicate a registered establishment.	
Box reference I.30:	“Nature of commodity”: Indicate: queen honeybees with maximum 20 attendants.	
Part II:		
(1)	Only queen honeybees with maximum 20 attendants.	
(2)	Delete if not applicable.
